

MOHAMAD NUR HAKIMI BIN ASMADI

hakimiasmadi1606@gmail.com | +60 17-5130347 | [linkedin.com/in/hakimi-as](https://www.linkedin.com/in/hakimi-as) | github.com/hakimi-as | Ipoh, Malaysia

PROFESSIONAL SUMMARY

Final-year Information Security & Assurance student at IIUM with a CGPA of 3.22 and Dean's List recognition. Experienced in full-stack mobile and web development with 6+ personal and academic projects using Flutter, Python, Firebase, HTML and Laravel. Hands-on exposure to REST APIs, real-time databases, machine learning integration, and agile workflows. Seeking a software engineering or cybersecurity internship to apply technical skills in a professional environment.

EDUCATION

International Islamic University of Malaysia

Expected Feb 2027

Bachelor of Information Technology (Hons) — Information Security & Assurance CGPA: 3.22 / 4.00 | Dean's List (Semester 1, 2025/2026)

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Systems, Computer Networks, Software Engineering, Web App Security, Web Application Development, Risk Management, Human Computer Interaction, OOP

Centre for Foundation Studies, IIUM Gambang

2021 – 2022

Foundation in Engineering & Computer Science

MARA Junior Science College (MJSC Gerik / Taiping)

2016 – 2020

Sijil Pelajaran Malaysia (SPM) — Merit-based residential school

TECHNICAL SKILLS

Languages: Python, Java, JavaScript/TypeScript, C++, C, SQL, PHP, R, Kotlin, HTML5/CSS3

Frameworks & Libraries: React, Node.js, Flutter, Firebase, Supabase, Laravel

Tools & Platforms: Git, Docker, MongoDB, Linux, VS Code, Hugging Face, Cursor, SOLIDWORKS (CAD), Figma

Concepts: OOP, Agile/Scrum, CI/CD, Data Structures, Algorithms, Unit Testing

PROJECTS

Gestura — Mobile Sign Language Learning App

Nov 2025 – May 2026

Flutter, Firebase, FastAPI, Google ML Kit, DTW | github.com/hakimi-as/GesturaApp

- Built a BIM sign language learning app (Flutter/Firebase) with structured lessons, 5 quiz modes, and auto-generated PDF certificates
- Developed a real-time FastAPI Sign Recognition API on Railway using Dynamic Time Warping (DTW) to match live pose landmarks against 2,000+ signs
- Secured official permission with the Malaysian Federation of the Deaf (MFD) for BIM Sign Bank access; implemented XP levelling, streaks, and leaderboard

Echoes of Terrain — Voice-Driven 3D Terrain Generator

May 2026

Three.js, GLSL, Web Speech API, Vite | github.com/hakimi-as/echoes-of-terrain

- Built a browser-based 3D world that reshapes terrain in real time from spoken keywords (volcano, ocean, storm, forest, snow, desert) using Web Speech API with confidence filtering
- Engineered custom GLSL ShaderMaterial with Fractal Brownian Motion (FBm) noise, slope-aware cliff colouring, Blinn-Phong specular, rim lighting, and atmospheric fog

- Implemented post-processing pipeline (EffectComposer, UnrealBloomPass, ACES tone mapping) and a Fresnel water mesh with swell animation and sun specular highlights

Dungeon Crawler — First-Person 3D Browser Game

May 2026

Three.js, JavaScript, Web Audio API | github.com/hakimi-as/dungeon-crawler

- Built a first-person 3D dungeon crawler in vanilla JavaScript with procedural BSP dungeon generation, fog-of-war minimap, and 3 themed environments using instanced rendering
- Designed 9 enemy AI types with A* pathfinding, line-of-sight, status effects (burn, bleed, poison, freeze), and a boss fight with phase-2 enrage mechanic
- Synthesized all audio in real time via Web Audio API (zero audio files); implemented meta-progression with localStorage, merchant shop, and power-up inventory systems

EduSnakes — Educational Multiplayer Board Game

May 2026

HTML5 Canvas 2D, Web Audio API, Vanilla JavaScript | github.com/hakimi-as/edusnakes

- Built a single-file classroom-ready Snakes & Ladders game where every snake/ladder requires a quiz answer; supports 2–10 players with custom MCQ and written question banks
- Implemented constraint-based board generator (BSP spatial constraints), 7 power-up types, wildcard events, and post-game learning insight analytics per topic
- Synthesized 4 background music tracks and all SFX via Web Audio API (zero audio files); included CSV bulk import, subject/topic organisation, and localStorage persistence

SmartExpense — Smart Expense Tracker

Nov 2025 – Jan 2026

Flutter, Firebase, Google ML Kit | github.com/hakimi-as/SmartExpense

- Built a Flutter expense tracker with Firebase Firestore, OCR receipt scanning via ML Kit, 12-currency support, and PDF report export
- Implemented budget alerts, FL Chart analytics dashboard, and Google/email Firebase Auth; published production APK on GitHub

MySaveFood — Campus Food Donation Platform

Oct 2025 – Dec 2025

Flutter, Firebase, Provider | github.com/MentosTerbakar/MySaveFood

- Architected MVVM-structured Flutter app with Provider state management and Firestore real-time streams for instant food listing updates
- Implemented role-based access (Donor/Student/Admin) and atomic claim system preventing double-booking by decrementing quantity in real time

Tayyib — Halal Barcode Scanner App

Nov 2025 – Jan 2026

Flutter, Riverpod, SQLite, Google ML Kit | github.com/hakimi-as/Tayyib

- Built a barcode-scanning halal checker (Flutter, Riverpod) with multi-source product lookup and local SQLite caching via sqflite
- Implemented E-code additive analysis engine classifying 130+ food additives (halal/haram/mushbooh) and OCR ingredient scanning via ML Kit

Beanie — Coffee Shop Ordering & POS System

Mar 2025 – Jul 2025

Laravel, PHP, MySQL, Bootstrap | github.com/HaruWa7305/webapp-gp

- Built a Laravel MVC ordering system with role-based auth (Admin/Customer), menu CRUD, cart management, and real-time order status tracking

JihadBarbershop — Multi-page Booking Website

2023

HTML5, CSS3, JavaScript, Bootstrap 5, jQuery | github.com/hakimi-as/webtech_project

- Developed a responsive multi-page barbershop site (Home, Barbers, Style & Price, Booking, Contact) with Google Sheets form integration via Apps Script
- Implemented scroll-triggered animations using IntersectionObserver API and jQuery UI interactive components

Payroll Management System

Dec 2023

Java | github.com/salmanfrds/OOP_CaseStudy

- Implemented salary calculation (gross pay, EPF 11% deduction, net pay) and 22-day hours record tracking in Java

WORK EXPERIENCE

Event Crew — Stock & Customer Support

Sep 2021 – Sep 2021

Big Bad Wolf Books — Ipoh, Perak

- Managed in-store book inventory and coordinated restocking to ensure shelves remained fully stocked throughout the event
- Assisted customers with bulk purchase packaging, ensuring items were securely boxed for carry-out
- Served as ad-hoc crew across multiple event functions, demonstrating adaptability in a fast-paced, high-volume retail environment

Event Crew — Guest Experience & Operations

Nov 2025 – Nov 2025

GSC Movies (Papa Zola Movie Premiere)

- Managed the registration counter during morning sessions, processing guest check-ins efficiently in a high-traffic environment
- Facilitated interactive game activities for event attendees, ensuring smooth engagement throughout the day
- Assisted with the meet-and-greet session between movie characters and guests during the evening, coordinating crowd flow and supporting a positive guest experience

CERTIFICATIONS & AWARDS

- Dean's List — Semester 1, 2025/2026 | Semester 1, 2024/2025 | CGPA 3.22
- Selected for MARA Junior Science College (MJSC) — merit-based national residential school
- Collaborated with Malaysian Federation of the Deaf (MFD) to obtain official BIM Sign Bank licensing for Gestura app
- Cisco Network Defense — Issued May 2026 | Skills: Access Control, Application Security, Network Defense
- Cisco Endpoint Security — Issued May 2026 | Skills: Linux, Wireless and Mobile Device Attacks, Endpoint Security
- Cisco Introduction to Modern AI — Issued May 2026 | Skills: Machine Translation, Prompting, AI Fundamentals
- Cisco Introduction to Cybersecurity — Issued May 2026 | Skills: Threat Assessment, Network Security
- Cisco Cyber Threat Management — Issued May 2026 | Skills: Threat Management, Incident Response, Cybersecurity
